TAVERN CROWD

Top 100
Shield Dwarf Names

For Shield Dwarf names, draw inspiration from Old Norse, using hard consonants like k, g, and th. Aim for two or three syllables, often featuring a strong first syllable and a hard-sounding ending. Clan names commonly precede given names, and honorifics or bynames like Ironbrow or Stonefist enhance the name's gravitas. To create your own, combine a descriptive element with a solid noun, ensuring it feels like it's been chiseled from rock.

1. Bramdorn Stonebrow
2. Kordak Flameforge
