TAVERN CROWD

Top 100 Male High Elf Names

When creating High Elf names, draw inspiration from Quenya and other melodic languages such as Finnish and Welsh. Aim for names that feature flowing vowels and liquid consonants, typically structured in 3-4 syllables, like "Elendil" or "Galadriel." High Elves often use clan names, such as "Fëanorion" to denote lineage, and may include epithets or titles that reflect their achievements or virtues. To craft a name, combine a melodic first element with a noble-sounding suffix, ensuring it maintains an elegant flow, such as "Lúthieniel" or "Aerendil."
