TAVERN CROWD

Top 100 Male Genasi Names

For Genasi names, draw from elemental language roots, blending them with human influences. Fire names often feature sharp sibilants and harsh vowels, like "Zarok" or "Kira," while water names flow with soft l or n sounds, such as "Lirael" or "Nym." Earth names utilize deep consonants, like "Grom" or "Thul," and air names are breathy and light, such as "Aelira" or "Zephyra." Consider using a clan name or an elemental epithet, like "of the Flame" or "Windwalker," to give your character depth; one tip is to start with a base name and modify it by adding elemental prefixes or suffixes that reflect their abilities.
