TAVERN CROWD

Top 100 Female Half-Orc Names

To create Half-Orc names, blend elements from both human and orcish languages. Draw inspiration from harsh guttural sounds typical of orcish, such as "gr," "th," and "k," while incorporating softer, more melodic human names. Aim for a combination where the first name is gentle and approachable, contrasted by a brutal or warlike surname, highlighting their dual heritage. For a concrete tip, consider using a human first name followed by an orcish clan name or epithet that reflects their lineage or exploits, like "Elior Bloodfist."
