TAVERN CROWD

Top 10 Minotaur Names

Minotaur names are Greek-adjacent, heavy and rhythmic, built for echoing through stone corridors. Many carry the weight of myth: names that sound like they belong on ancient amphora or carved into labyrinth walls.

1. **Asterion** — *Greek Mythology*
   The Minotaur's actual name — 'star.' He was prince of Crete before he was a monster.
2. **Baphomet** — *D&D / Occult Tradition*
   Demon lord of beasts and labyrinths. The dark patron of minotaur culture in D&D.
3. **Tauren** — *World of Warcraft*
   Blizzard's bull-people are minotaurs in all but name. They redefined the species as noble.
4. **Cairne Bloodhoof** — *Warcraft III*
   The wise Tauren chieftain whose death shook the Horde. Honorable to his last breath.
5. **Minos** — *Greek Mythology*
   King of Crete who built the Labyrinth. His name is literally the root of 'minotaur.'
6. **Iron Bull** — *Dragon Age: Inquisition*
   A Qunari mercenary — horned and massive. BioWare's take on the minotaur companion.
7. **Ferdinand** — *The Story of Ferdinand*
   The bull who'd rather smell flowers than fight. A minotaur pacifist's perfect namesake.
8. **Taurus** — *Zodiac / Greek*
   The bull constellation. Minotaur names and star-lore intertwine naturally.
9. **Labrys** — *Greek / Minoan*
   The double-headed axe of Crete. More a title than a name — 'the Axe.'
10. **Ox** — *Universal*
    Sometimes the simplest names carry the most weight. A minotaur named Ox owns what they are.
